

PRODUCT

ORGANIC BIOSTIMULANT

Composition	Ingredient	Liquid
	Eugenol	00.50% w/v min.
	Potassium salt of fatty acids	99.50% w/v max.

Crops

Cotton, Chilli, Brinjal, Cabbage, Okra, Tomato, Ornamental flowers, Pomegranate, Grapes, Watermelon, Cucumber, Beetle vine & other vegetables.

Mode of Action

Potassium derived from potassium salts of fatty acids results in overall lush growth. Also builds up immunity and anti-stress capability of plants that helps to combat environmental stress, disease and pest attack and improves vigour. Presence of higher amount of cold extracted clove oil (eugenol) resists pests like white flies, thrips etc.

How to Apply

Mix the recommended quantity thoroughly in sufficient amount of water & spray on both sides of the leaves / affected areas.

Shelf Life

3 years from the date of manufacture.

Antidote

No specific antidote. Treat symptomatically.

Dosage

5-8 ml per litre of water

Organic Approval as per NPOP (by APEDA)

1. IMO Control
2. VOCA
